

# QUALITY OBJECTIVES

**Measurable objectives, consistent with the Quality Policy have been defined:**

Measurements of these objectives are done on a monthly basis during our monthly Management Review Meetings and the necessary actions are taken to correct deviations from stated objectives if necessary;

**Senior Management of KIARAH CHEMICALS are committed the following:**

- \* To continue to maintain an ISO recognised Quality Management System within KIARAH CHEMICALS CC;
- \* It is the objective of KC CC to continuously maintain the highest level of Quality and Safety against all work performed within the chemical manufacturing plant, by ensuring all Standard Operating Procedures and Work Instructions are adhered to at all times;
- \* To ensure Process flows, KC Standard Operating Procedures, System Procedures, Work Instructions and Flow Charts - all the critical processes which are key to the compliance of the stipulated ISO Standards, are contained for current relevance and maintained on a regular basis;
- \* To ensure continued implementation of the Non Conformance / Corrective Action procedures within the company, ensuring that ALL Non Conformances are noted and corrective actions signed off;
- \* To identify current shortfalls during our Monthly Management Review Meetings and compile a list of feasible implementable solutions;
- \* To implement our newly updated internal review system, this shall ensure monitoring of all progress situations, required changes, deviations, corrective & preventive actions, via our monthly Internal Audits.
